Inmate Work Assignment: N/A

I am requesting to be seen immediately.

I have pink eye, my left eye is inflamed, red, painful and extremely irritated.

Please call me out to be seen immediately.

Thank you very much for your time.

Inmate Work Assignment: orderly

I have server cramps in right leg and it has been unbearable. The pain never demises and I can not tolerate it much longer. I have talked to my personal physician on the telephone and he thinks it may be a blood clot in my leg. Please call me immediately for some sort of treatment! Thank you!

Inmate Work Assignment: orderly

I have attempted numerous times to request the Medical Staff address a skin issue I have on my hands. Additionally, I have an infection in my left eye.. and after numerous request nothing has transpired. Further, my right leg (lower calf) has major circulation problems and once again, all efforts to gain medical attention has fallen on deaf ears and blind eyes. I have submitted "paper cop-outs" as well as emails. All to no avail. I am a diabetic with high blood pressure issues and should not have to pay my private attorney an hourly fee to file petitions with the court asking for a judgment order to get the Bureau of Prison to properly address my critical medical concerns. I have attempted to follow the chain of command procedures and even gone the extra mile to be patient with the cased load of inmates requiring medical attention. I can not continue to neglect my state of health. Having pursued all options.... I solicit your assistance in this urgent matter. Thank you!
